It is not easy for an office to become familiar with the details of every dental plan it encounters. And it is, of course, the responsibility of the patient not the dental office to know what is covered and what is excluded from her or his own dental plan. We will do our best to inform you of what we know of your dental plan but ultimately you are responsible for any and all charges not covered.

Consent for Services

*Required Fields

As a condition of your treatment by this office, financial arrangements must be made in advance. The practice depends upon reimbursement from the patients for the costs incurred in their care and financial responsibility on the part of each patient must be determined before treatment.

All emergency dental services, or any dental services performed without previous financial arrangements, must be paid for in cash at the time services are performed.

Patients who carry dental insurance understand that all dental services furnished are changed directly to the patient and that he or she is personally responsible for payment of all dental services. This office will help prepare the patients Insurance forms or assist in making collections to the patient's account. However, this dental office cannot render services on the assumption that our changes will be paid by an insurance company.

A service charge of 2% per month (24% per annum) on the unpaid balance will be charged on all accounts exceeding 60 days, unless previously written financial agreements are satisfied.

I understand that the fee estimate listed for this dental care can only be extended for a period of six months from the date of the patient examination.

In consideration for the professional services rendered to me, or at my request, by the Doctor, I agree to pay therefore the reasonable value of said services to said Doctor, or his assignee, at the time said services are rendered, or within five (5) days of billing if credit shall be extended. I further agree that the reasonable value of said services shall be as billed unless objected to, by me, in writing, within the time for payment thereof. I further agree that a waiver of any breach of any time or condition hereunder shall not constitute a waiver of any further term or condition and I further agree to pay all costs of collection, including a 50% collection fee, attorney fees and court costs.

I grant my permission to you or your assignee, to telephone me at home or at my work to discuss matters related to this form.

I have read the above conditions of treatment and payment and agree to their content.
